

If there are rounds washed out due to field closure we have allowed 2 weeks at the end of the season to catch up games, the finals will be pushed back if required. If the washed out rounds cannot be caught up in these two weeks then:

1. Games will be played on either a **FRIDAY evening** or a **SUNDAY afternoon** depending on field availability
2. If they cannot be played as per point 1 then **30 minute games** (15 min halves) will be scheduled for a normal competition night, with **2 games** being played on the same night.
3. If they cannot be played as per points 1 or 2 then the **rounds will be cancelled**.

If the fields are closed during the finals, the finals will be pushed back into the two spare weeks, if they have not already been used. If there are no more spare weeks:

1. We will attempt to play games either on a **FRIDAY evening** or a **SUNDAY afternoon** depending on field availability
2. If they cannot be played as per 1 then **two 30 minute games** (15 min halves), being the semi final then the grand final will be scheduled for the grand final night.
3. If for whatever reason we cannot play the Grand Final's within the allotted timeframes then the **team finishing highest on the ladder that is qualified for the Grand Final will be declared the winners**.

There will be **NO REFUNDS** for games being cancelled due to weather conditions.
